AMENDMENTS FOR NEXT ELECTION

Nine by Acts and Three Under Initiative and Referendum

It seems certain now that no less than twelve constitutional amendments, some of them quite voluminous, will be submitted to the voters of Missouri at the general election next year. The legislature has already provided for voting on nine of these amendments, and it is promised that three more will be submitted under the initiative referendum.

The ballot at the next election will undoubtedly be a thing of wonderful size, even if beauty is missing. The nine amendments that the legislature adopted, and which will have to appear on the official ballot are, as listed by the secretary of state:

1. Providing for a pension for school teachers in cities of 100,000 inhabitants and over.
 2. Providing a pension for policemen in cities of 100,000 inhabitants and over.
 3. For the adoption of voting machines.
 4. Appropriating \$4,000,000 for a new state capitol.
 5. Increasing the county and city revenue levy for public purposes, subject to approval by the voters from 60 cents to \$1 and from 50 to 90 cents on the \$100 valuation.
 6. Permitting counties and cities to increase their revenue levy for poorhouses.
 7. Establishing a permanent state road fund by a levy of 5 cents on the \$100 valuation.
 8. Increasing the pay of members of the legislature from \$5 to \$10 per day for first ninety days and thereafter fixing the same at \$3 per day.
 9. Providing a method for the city of St. Louis in amending its charter.
- It is now promised that under the initiative and referendum at least

three more amendments have been submitted, to wit:

1. Constitutional prohibition of manufacture and sale of intoxicants.
2. For a constitutional separation of state and local taxes and abolishing what is known as the "state property tax."
3. Home rule for the three large cities of the state—St. Louis, Kansas City and St. Joseph. Gov. Hadley is standing sponsor for this latter proposed amendment to the organic laws of the state.

It is not going to be such a difficult matter as some suppose to get the submission of a measure under the initiative and referendum. The total vote cast for president at the last general election was 455,308. Five per cent of the total vote cast in eleven of the sixteen congressional districts of the state will meet the requirements of the initiative and referendum amendment that was adopted to the constitution last year.

Money Comes in Bunches

To A. A. Chisholm, of Treadwell N. Y., now. His reason is well worth reading: "For a long time I suffered from indigestion, torpid liver, constipation, nervousness and general debility," he writes. "I couldn't sleep, had no appetite, nor ambition, grew weaker every day in spite of all medical treatment. Then used Electric Bitters. Twelve bottles restored all my old-time health and vigor. Now I can attend to business every day. It's a wonderful medicine." Infallible for Stomach, Liver, Kidneys, Blood and Nerves. 50c at A. H. Cox & Co's.

The thriving little town located on the west line of the county where Spring River enters Jasper county, has had at least three names. Oregon, Bowers Mill and Bower Mills. Fifteen or twenty years ago when a bond was made for a new postmaster the scribe wrote it "Bower Mills," and the postoffice department, thinking they wanted the name changed, obliged them by giving it the name in the bond, and it still so appears in the directory, but nearly everybody calls it by the former name of "Bowers Mill," and no doubt the bulk of the mail is so addressed.—Mt. Sulphur Interurban to Reach Oklahoma City

E. McClintock, chief engineer of the J. P. Taylor Engineering company, who represents also J. P. Hornaday & Co., bankers in New York, is here conferring with Geo. W. Angle, consulting engineer for the Hornaday interests, with reference to an interurban railroad project submitted by Scott Jones at Chickasha. He is also considering the feasibility of changing the proposed route so that the line will extend from Pauls Valley to Oklahoma City rather than to Chickasha.
